

**PSEUDOATTA**

**argentina.** *Pseudoatta argentina* Gallardo, 1916d: 321, figs. 1, 2 (q.m.) ARGENTINA (Misiones, Tucumán (“Bella Vista”), Buenos Aires, Córdoba).

[Note: Bella Vista is a place name in three Argentinian provinces: Buenos Aires, Corrientes, and Tucumán. Kusnezov, 1953b: 338, includes *argentina* in his list of ants of Tucumán, therefore the Bella Vista type-locality is assumed to be in that province.]

Bruch, 1928: 345 (l.).

**Status as species:** Emery, 1924d: 346; Bruch, 1928: 341; Gallardo, 1929: 197; Wheeler, W.M. 1937c: 52; Kusnezov, 1953b: 338; Kutter, 1968b: 205; Kempf, 1972a: 214; Bolton, 1995b: 369.

Current subspecies: nominal plus *platensis*.

**platensis.** *Pseudoatta argentina* var. *platensis* Santschi, 1926d: 7 (q.m.) ARGENTINA (Buenos Aires).

**Subspecies of *argentina*:** Kempf, 1972a: 214; Bolton, 1995b: 369.
