*Corresponding author

We are honored to present this special issue of *Palaeoentomology* in celebration of our dear friend, mentor, and collaborator, David A. Grimaldi (Fig. 1), and on the occasion of his 65th birthday on 22 September 2022. This issue has been compiled in recognition of David's remarkable ongoing impact on the fields of

paleontology, entomology, and evolutionary biology. Throughout his career David has worn an inspirational path across disciplines as an exceptional, thoughtful, and creative scientist. His body of work is vast, punctuated by long-lasting classics that are international in scale and recognition. David is a world authority in multiple

FIGURE 1. David A. Grimaldi alongside an exposure of *Metasequoia* fossils in the Matanusak River Valley, Alaska, July 2001 (photograph by Keith Luzzi).

arenas; his well-earned expertise ranges from the fossil record and evolutionary history of insects beginning 400 million years ago in the Devonian to the systematics and morphology of notoriously complex drosophilids at the species level. His contributions have helped shape modern palaeoentomology. We are grateful for David's work and fellowship and look forward to his continued accomplishments.

A short biography

David's academic training began with an atypical but important start as a student of both Biology and Fine Arts at the University of Connecticut, where he graduated with a Bachelor's degree in 1979. As an undergraduate David developed a fascination for insects as well as a sharp eye for illustration and morphology. It was this foundation that led him to graduate school, first as a Master's student at the Department of Biological Sciences of the State University of New York (SUNY) in Binghamton and

then onto a PhD in Entomology at Cornell University. At SUNY David worked with John Jaenike on the ecology and evolution of *Drosophila* (Jaenike *et al.*, 1982; Grimaldi & Jaenike, 1982; Grimaldi & Jaenike, 1983), beginning his now four-decade long research program on this group of iconic insects. As a PhD student, David studied with Quentin D. Wheeler and William "Bill" L. Brown, Jr. (1922–1997), both prolific giants in the fields of systematic theory and Hymenoptera systematics, respectively. It was here that perhaps David's trajectory toward the fossil record was set, Bill Brown was himself a student of Frank M. Carpenter (1902–1994), perhaps the most impactful American palaeontologist of the 20th century. Cornell was a breeding ground for a number of notable entomologists and was also home to prominent scientists who had impacts on Dave as a developing scholar. David availed himself of the influence and mentorship of Thomas Eisner (1929–2011), George C. Eickwort (1940–1994), and John "Jack" G. Franclemont

(1912–2004), among many others. David was a sponge, absorbing everything from these titans of entomology and evolutionary biology, all of which forged his keen mind.

In 1986, David's draft thesis on *Zygothrica* systematics demonstrated the talent and promise of an up-and-coming scientist so clearly that he was hired as an Assistant Curator in the Department of Entomology at the American Museum of Natural History directly from graduate school. The thesis reveals that the hallmarks of David's characteristic style and precision were in place early on. The published version of the dissertation is a 165-page monograph, which includes over 500 figures, ranging from meticulous SEM images to beautiful hand-drawn and shaded anatomical and habitus reconstructions (Grimaldi, 1987). Beyond the visual elements, there are detailed phylogenetic reconstructions, ecological and natural history data, behavioral observations, and insightful hypotheses rooted in synthesis. In reading David's first monograph, it is obvious that his passion for insects, ecology, and evolution is the engine responsible for his unmistakable contributions to science.

As Associate Curator and ultimately Curator in the Division of Invertebrate Zoology American Museum of

Natural History (AMNH), David oversees what is likely the world's most diverse collection of amber fossils, spanning thousands of specimens from major deposits in the Dominican Republic, Mexico, India, the Baltic region, Myanmar, Lebanon, and New Jersey as well as lesser-known localities in Alaska, Alabama, North Carolina, Wyoming, and Arkansas (Fig. 2). He curates an expansive collection of extant Lepidoptera and Diptera numbering into the millions of specimens, including a massive drosophilid collection that he has expanded. He has traveled the world in the service of expanding collections of extant and fossil insects including major long-term amber excavations of Paleocene-Eocene and Cretaceous material in India and New Jersey, respectively, as well as sampling living flies in places as varied as Venezuela, Costa Rica, and Fiji to Vietnam and Tanzania, among many others. In the 1990s, David led the first and so far only systematic excavation of so-called "Raritan" amber from New Jersey, yielding thousands of arthropod inclusions (Grimaldi & Nascimbene, 2010), which represent a unique window into Mesozoic insects. These excavations resulted in the discovery of what were at the time the earliest ants, the earliest amber mushrooms,

FIGURE 4. David A. Grimaldi in the field. **A**, David with a large piece of Alaskan amber uncovered on the Koalak River during his excavations near Arctic Ocean coast in July 2001 (photograph by Keith Luzzi). **B**, Exploring the Solite Quarry area in 2004; left to right: Michael S. Engel, David (with telescope), and Roy Larimer (photographer unknown). **C**, David wielding a jackhammer to loosen layers of shale at the Solite Quarry, Virginia in 2004 (photograph by Michael S. Engel). **D**, Excavating Cambay amber at the Tadkeshwar lignite mine in January 2009; left to right: Paul C. Nascimbene (back to camera at left), Rajendra S. Rana (head in profile), David (seated), Hukam Singh (seated at right to Dave), unknown mine official (squatting), Michael S. Engel (back to camera at right) (photographer unknown).

the first Mesozoic Tardigrada, and numerous other remarkable lineages of plants and animals, the initial reports of which appeared in high-profile journals such as *Nature* and *Proceedings of the National Academy of Sciences*, but were also organized into a specially edited volume (Grimaldi, 2000). It was also at this time that Dave devoted his tremendous energies and eye for aesthetics to a milestone exhibition at the AMNH on amber art and paleontology. The exhibition and the companion volume he produced, *Amber: Window to the Past* (Grimaldi, 1996),

exposed scores of thousands of people to the wonders of amber inclusions. The book was an instant classic, filled with gorgeous colorful images of objects d’art, stunning fossils, and a warehouse of information written so that it can be enjoyed by everyone from seasoned scholars to any inquisitive layperson.

For several years in the late 1990s David had envisioned a broadly synthetic book that would unite the paleontology of insects with knowledge of their biology, ecology, and general evolution. By 2000 he had drafted

an example chapter on Dictyoptera to share with potential publishers and had invited one of us (M.S.E.) to join him in the endeavor. In September 2001 a contract was eventually secured with Cambridge University Press, paving the way for the eventual appearance of the visually sumptuous *Evolution of the insects* (Grimaldi & Engel, 2005; Fig. 3). This book highlights all of the best qualities of David's work and further reveals the breadth and depth of his writ large understanding of insects, equally at home with the ecology of extant Lepidoptera and the comparative anatomy of lice to the geology of major deposits and the paleobiology of ancient griffenflies. It also showcases his exceptional artistic skills, from the fine arrangement of plates of insect photomicrographs to his outstandingly renderings of extant and fossil taxa. David has produced thousands of illustrations throughout his career, and this book highlights only a small selection of his craft. His artistic vision has also enhanced his monographs and shorter papers, with keen observation required to render images of specimens also granting him a uniquely detailed skill for finding key traits often overlooked by previous researchers.

While David has received significant accolades for his work, he has always remained humble and is one of the most approachable of scholars. In 2007 he was honored by the Entomological Society of America with the Thomas Say Award, and in 2015 he was awarded the Paleontological Research Institute's Gilbert Harris Award, the only entomologist to receive this honor (Fig. 4). David has been recognized for his collaborations and contributions through dozens of eponyms, including several new fossil arthropods reported for the first time in this issue. Prior to the pandemic, a visit to the AMNH amber collection was an almost guarantee to meet another visiting scientist, often gleefully chatting with David. His effortless familiarity with all things entomological translates into a natural springboard for meaningful conversation. As David's collaborators and mentees, we both find inspiration from even brief chats and suspect we are not alone in this regard. As a mentor and collaborator, David is thoughtful and generous. He has fledged numerous graduate students and supervised postdoctoral researchers who have gone on to scientific positions around the world.

A key feature of David's work is synthesis. As entomologists, it can be difficult sometimes to see the forest for the trees; there are many trees among millions of species. This never seems to be hard for David. Even his single species descriptions and taxonomic monographs yield insight into broader themes in ecology and evolution, often breadcrumbs for future readers and students. At the same time, David has cemented widely known scientific milestones in journals such as *Nature*, *Science*, and *Proceedings of the National Academy of Sciences*. These

high-profile contributions, too, reveal the breadth of David's research program: work on the earliest fossils in the Devonian, Triassic amber inclusions, the earliest ants and bees in the Cretaceous, vertebrate remains preserved in amber, and reports of new fossil localities. A survey of David's published work will reveal the breadth but also remarkable depth that typifies his work. Included in each paper are what a musician might call "deep cuts"—references carefully plucked out of seemingly obscure ecological and natural history literature to provide a key bit of nuance or insight. David's genuine curiosity and creativity are lighter fluid for discovery.

There are many kinds of biologists, and yet few who stand out as wholly unique in their impact. We would suggest that any reader of *Palaeoentomology* could identify a publication by David Grimaldi even were his name removed from the title. He has established a style and career all his own, unmistakable for any other scientist. We all look forward to continuing to learn from David's insightful contributions in the many years to come, even as his accomplishments have already inspired generations of scientists.

Appendix I: Current publications of David A. Grimaldi

(1 January 1979–present, 9 September 2022)

David's publications span a remarkable breadth of topics and journals, including five in *Nature*, four in *Science*, and six in *Proceedings of the National Academy of Sciences, U.S.A.* He is the most accomplished living entomologist and paleontologist, with significant contributions to evolutionary biology, insect ecology, pollination ecology, insect comparative morphology, historical biogeography, insect phylogeny, extant dipteran systematics, museum curation and conservation, amber paleontology, taphonomy, and, of course, the systematics and classification of fossil insects. His list of publications is also peppered with popular science accounts, a reflection of his natural writing talent, his spectacular humor and wit, and his dedication to disseminating the results of scholarly work to a lay audience.

Appendix II: Current taxa authored/coauthored by David A. Grimaldi
(2 July 1986–present, 9 September 2022)

As of this date, we have recorded 694 species-group (242 extant), 217 genus-group (four extant), and 31 family-group (eight extant) names established by David (boldfaced), the vast majority of which are insects and therein most are flies.

KINGDOM PLANTAE L.

Class Angiospermae Lindl.

Order Fagales Engl.

†*Soepadmoa* Nixon, Crepet, Gandolfo, & Grimaldi

†*Soepadmoa cupulata* Nixon, Crepet, Gandolfo, & Grimaldi

Order Laurales Juss. ex Bercht. & J.Presl.

†*Jamesrosea* Crepet, Nixon, Grimaldi, & Riccio

†*Jamesrosea burmensis* Crepet, Nixon, Grimaldi, & Riccio

KINGDOM FUNGI (L.) R.T.Moore

Class Agaricomycetes Doweld

Order Agaricales Underw.

Family Mycenaceae (Pers.) Roussel

†*Protomyцена* Hibbett, Grimaldi, & Donoghue

†*Protomyцена electra* Hibbett, Grimaldi, & Donoghue

Family Tricholomataceae R.Heim ex Pouzar

†*Archaeomarasmius* Hibbett, Grimaldi, & Donoghue

†*Archaeomarasmius leggetti* Hibbett, Grimaldi, & Donoghue

KINGDOM ANIMALIA L.

Phylum MOLLUSCA L.

Family Assimineidae Adams & Adams

†*Assiminea straitura* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

Family Cyclophoridae Gray

†*Eotrichophorus* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Eotrichophorus kachin* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Perissocyclos* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Perissocyclos kyrtostoma* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

Family Diplommatinidae Pfeiffer

†*Paleodiplomatina* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Paleodiplomatina spelomphalos* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Xenostoma* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Xenostoma lophopleura* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

Family Pupinidae Pfeiffer

†*Macropupina* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

†*Macropupina electricus* Bullis, Herhold, Czekanski-Moir, Grimaldi, & Rundell

Phylum TARDIGRADA Spallanzani

Family Milnesiidae Ramazzotti

†*Milnesium swolenskyi* Bertolani & Grimaldi

Phylum ONYCHOPHORA Grube

Family Peripatidae Evans

†*Cretoperipatus* Engel & Grimaldi

†*Cretoperipatus burmiticus* Engel & Grimaldi

Phylum ARTHROPODA von Siebold

Panhexapoda Grimaldi & Engel

Class Arachnida Lamarck

Order Acariformes Zakhvatkin

Family Eriophyiidae Nalepa

†*Ampezzo* Lindquist & Grimaldi

†*Ampezzo triassica* Lindquist & Grimaldi

†*Triasacarus* Lindquist & Grimaldi

†*Triasacarus fedelei* Lindquist & Grimaldi

Order Amblypygi Thorell

Unidistitarsata Engel & Grimaldi

Family Paracharontidae Weygoldt

†*Paracharonopsis* Engel & Grimaldi

†*Paracharonopsis cambayensis* Engel & Grimaldi

Family *Incertae sedis*

†*Kronocharon* Engel & Grimaldi

†*Kronocharon prendinii* Engel & Grimaldi

Order Parasitiformes Leach

Family Argasidae Koch

†*Carios jerseyi* Klompen & Grimaldi

Class Entognatha Grassi

Order Collembola Lubbock

Neopleona Grimaldi & Engel

Order Diplura Börner

Campodeomorpha Grimaldi & Engel

Japygomorpha Grimaldi & Engel

Class Insecta L.

†**Diathemoptera** Grimaldi & Engel

†**Dicliptera** Grimaldi & Engel

Holodonata Grimaldi & Engel

Holophasmatodea Grimaldi & Engel

Pandermaptera Grimaldi & Engel

Polyorthoptera Engel & Grimaldi

†**Protoneuroptera** Grimaldi & Engel

Order Zygentoma Börner

Euzygentoma Grimaldi & Engel

Order Odonata Fabricius

Eteoanisoptera Grimaldi & Engel

Order Zoraptera Silvestri

Family Zorotypidae Silvestri

†*Xenozorotypus* Engel & Grimaldi

†*Xenozorotypus burmiticus* Engel & Grimaldi

†*Zorotypus acanthothorax* Engel & Grimaldi

†*Zorotypus cretatus* Engel & Grimaldi

†*Zorotypus goeleti* Engel & Grimaldi

†*Zorotypus nascimbenei* Engel & Grimaldi

Order Embiidea Kusnezov

Clothododea Engel & Grimaldi

Neoembiodea Engel & Grimaldi

Family Archembiidae Ross

†*Kumarembia* Engel & Grimaldi

†*Kumarembia hurleyi* Engel & Grimaldi

†*Sorellembia* Engel & Grimaldi

†*Sorellembia estherae* Engel & Grimaldi

†**Sorellembiidae** Engel & Grimaldi [currently subfamily]

Family Notoligotomidae Davis

†**Burmitembiinae** Engel & Grimaldi

Order Dermaptera De Geer

Family Anisolabididae Verhoeff

†*Toxolabis* Engel & Grimaldi

†*Toxolabis zigrasi* Engel & Grimaldi

Family Labiduridae Verhoeff

†*Myrrholabia* Engel & Grimaldi

†*Zigrasolabis* Engel & Grimaldi

†*Zigrasolabis speciosa* Engel & Grimaldi

Family Pygidicranidae Verhoeff

- †*Burmapygia* Engel & Grimaldi
- †*Burmapygia resinata* Engel & Grimaldi
- †*Burmapygiinae* Engel & Grimaldi

Order Orthoptera Olivier

Family †Elcanidae Handlirsch

- †*Burmelcana* Peñalver & Grimaldi
- †*Burmelcana longirostris* Peñalver & Grimaldi
- †*Hispanelcana* Peñalver & Grimaldi
- †*Hispanelcana alavensis* Peñalver & Grimaldi
- †*Hispanelcana arilloi* Peñalver & Grimaldi
- †*Hispanelcana lopezvallei* Peñalver & Grimaldi

Order Notoptera Crampton

Family Mantophasmatidae Zompro, Klass, Kristensen, & Adis

- †*Adicophasma* Engel & Grimaldi
- †*Adicophasma spinosa* Engel & Grimaldi

Order Mantodea Burmeister

- Eumantodea** Grimaldi
- Neomantodea** Grimaldi

Family †Umenocoleidae Chen & Tan

- †*Jantaropterix* Vršanský & Grimaldi (in Vršanský, 2003)
- †*Jantaropterix lebani* Vršanský & Grimaldi (in Vršanský, 2003)
- †*Ponopterix* Vršanský & Grimaldi (in Vršanský, 1999)
- †*Ponopterix axelrodi* Vršanský & Grimaldi (in Vršanský, 1999)

Family †Ambermantidae Grimaldi

- †*Ambermantis* Grimaldi
- †*Ambermantis wozniaki* Grimaldi

Family †Santanmantidae Grimaldi

- †*Santanmantis* Grimaldi
- †*Santanmantis axelrodi* Grimaldi

Family Incertae sedis

- †*Burmantis* Grimaldi
- †*Burmantis asiatica* Grimaldi
- †*Burmantis lebanensis* Grimaldi
- †*Jersimantis* Grimaldi
- †*Jersimantis burmiticus* Grimaldi
- †*Jersimantis luzzii* Grimaldi

Order Blattodea Brunner von Wattenwyl

Family †Mesoblattinidae Handlirsch

- †*Nymphoblatta* Vršanský & Grimaldi (in Vršanský, 2004)
- †*Nymphoblatta azari* Vršanský & Grimaldi (in Vršanský, 2004)

Family †Raphidiomimidae Vishniakova

- †*Raphidiomimula* Ross & Grimaldi
- †*Raphidiomimula burmitica* Ross & Grimaldi

Clade Isoptera Brullé

- Euisoptera** Engel, Grimaldi, & Krishna
- Neoisoptera** Engel, Grimaldi, & Krishna

Family †Archeorhinotermitidae Krishna & Grimaldi

- †*Archeorhinotermes* Krishna & Grimaldi
- †*Archeorhinotermes rossi* Krishna & Grimaldi

Family Archotermopsidae Engel, Grimaldi, & Krishna

Family †Cratomastotermitidae Engel, Grimaldi, & Krishna

Family Kalotermitidae Froggatt

- †*Kachinitermes* Engel, Grimaldi, & Krishna
- †*Proelectrotermes holmgreni* Engel, Grimaldi, & Krishna

Family †Krishnatermitidae Engel

- †*Gigantotermes* Engel, Barden, & Grimaldi
- †*Gigantotermes rex* Engel, Barden, & Grimaldi
- †*Ginormotermes* Engel, Barden, & Grimaldi
- †*Krishnatermes* Engel, Barden, & Grimaldi
- †*Krishnatermes yoddha* Engel, Barden, & Grimaldi

Family Mastotermitidae Desneux

- †*Garmitermes* Engel, Grimaldi, & Krishna
- †*Garmitermes succineus* Engel, Grimaldi, & Krishna
- †*Mastotermes electrodomicus* Krishna & Grimaldi

Family †Melqartitermitidae Engel

- †*Melqartitermes* Engel, Grimaldi, & Krishna
- †*Melqartitermes myrrheus* Engel, Grimaldi, & Krishna

Family †Mylacrotermitidae Engel

- †*Mylacrotermes* Engel, Grimaldi, & Krishna
- †*Mylacrotermes cordatus* Engel, Grimaldi, & Krishna

Family Heterotermitidae Froggatt

- †*Coptotermes hirsutus* Krishna & Grimaldi
- †*Coptotermes paleodominicanus* Krishna & Grimaldi

Family Stylotermitidae Holmgren & Holmgren

- †*Parastylotermes krishnai* Engel & Grimaldi
- †*Prostylotermes* Engel & Grimaldi
- †*Prostylotermes kamboja* Engel & Grimaldi

Family †Tanytermitidae Engel

- †*Tanytermes* Engel, Grimaldi, & Krishna
- †*Tanytermes anawrahtai* Engel, Grimaldi, & Krishna

Family Termitidae Latreille

- †*Amitermes lucidus* Krishna & Grimaldi
- †*Anoplotermes bohio* Krishna & Grimaldi
- †*Anoplotermes cacique* Krishna & Grimaldi
- †*Anoplotermes carib* Krishna & Grimaldi
- †*Anoplotermes maboja* Krishna & Grimaldi
- †*Anoplotermes naboria* Krishna & Grimaldi
- †*Anoplotermes nitaino* Krishna & Grimaldi
- †*Anoplotermes quisqueya* Krishna & Grimaldi
- †*Anoplotermes taino* Krishna & Grimaldi
- †*Atlantitermes antillea* Krishna & Grimaldi
- †*Atlantitermes caribea* Krishna & Grimaldi
- †*Atlantitermes magnoculus* Krishna & Grimaldi
- †*Caribitermes hispaniola* Krishna & Grimaldi
- †*Microcerotermes insulanus* Krishna & Grimaldi
- †*Microcerotermes setosus* Krishna & Grimaldi
- †*Nanotermes* Engel & Grimaldi
- †*Nanotermes isaacae* Engel & Grimaldi
- †*Nasutitermes ampliocolatus* Krishna & Grimaldi
- †*Nasutitermes crinitus* Krishna & Grimaldi
- †*Nasutitermes incisus* Krishna & Grimaldi
- †*Nasutitermes magnocellus* Krishna & Grimaldi
- †*Nasutitermes mediocolatus* Krishna & Grimaldi
- †*Nasutitermes pilosus* Krishna & Grimaldi
- †*Nasutitermes rotundicephalus* Krishna & Grimaldi
- †*Nasutitermes seminudus* Krishna & Grimaldi
- †*Parvitermes longinasus* Krishna & Grimaldi
- †*Subulitermes hispaniola* Krishna & Grimaldi
- †*Subulitermes insularis* Krishna & Grimaldi
- †*Termes primitivus* Krishna & Grimaldi
- †*Velocitermes bulbus* Krishna & Grimaldi

Family †Termopsidae Holmgren

- †*Termopsis ukapirmasi* Engel, Grimaldi, & Krishna

Family Incertae sedis

- †*Baissatermes* Engel, Grimaldi, & Krishna
- †*Baissatermes lapideus* Engel, Grimaldi, & Krishna
- †*Carinatermes* Krishna & Grimaldi
- †*Carinatermes nascimbenei* Krishna & Grimaldi
- †*Carinatermitinae* Krishna & Grimaldi
- †*Dharmatermes* Engel, Grimaldi, & Krishna
- †*Dharmatermes avernalis* Engel, Grimaldi, & Krishna
- †*Khanitermes* Engel, Grimaldi, & Krishna
- †*Meiatermes hariolus* Grimaldi

Order Psocodea Hennig

Family Liposcelididae Broadhead

- †*Belaphopsocus dominicus* Grimaldi & Engel
- †*Cretoscelis* Grimaldi & Engel
- †*Cretoscelis burmitica* Grimaldi & Engel

Family Sphaeropsocidae Kolbe

- †*Asphaeropsocites* Azar, Engel, & Grimaldi
- †*Asphaeropsocites neli* Azar, Engel, & Grimaldi
- †*Sphaeropsocites* Grimaldi & Engel

†*Sphaeropsocites lebanensis* Grimaldi & Engel
 †*Sphaeropsocoides* Grimaldi & Engel
 †*Sphaeropsocoides canadensis* Grimaldi & Engel

Order Hemiptera L.
Neosternorrhyncha Grimaldi

Family Aphididae Latreille
 †*Gondvanoaphidinae* Wegeriek & Grimaldi
 †*Gondvanoaphis* Wegeriek & Grimaldi
 †*Gondvanoaphis estephani* Wegeriek & Grimaldi

Loyugesia khuati Grimaldi & Blagoderov
Lygistorrhina edwardsina Grimaldi & Blagoderov
†*Lygistorrhina indica* Stebner & Grimaldi
†*Palaeognoriste orientale* Stebner & Grimaldi
†*Plesiognoriste* Blagoderov & Grimaldi
†*Plesiognoriste carpenteri* Blagoderov & Grimaldi
†*Plesiognoriste zherikhini* Blagoderov & Grimaldi
†*Protognoriste* Blagoderov & Grimaldi
†*Protognoriste amplicauda* Blagoderov & Grimaldi
†*Protognoriste goeleti* Blagoderov & Grimaldi
†*Protognoriste nascifoa* Blagoderov & Grimaldi
- Family Mesembrinellidae Shannon
†*Mesembrinella caenozoica* Cerretti, Stireman, Pape, O'Hara, Marinho, Rognes, & Grimaldi
- Family Mythicomyiidae Melander
†*Microburmyia* Grimaldi & Cumming
†*Microburmyia analvena* Grimaldi & Cumming
†*Microburmyia veanalvena* Grimaldi & Cumming
- Family Mycetophilidae Newman
†*Alavamanota burmitina* Blagoderov & Grimaldi
†*Allocotocera burmitica* Blagoderov & Grimaldi
†*Apolephthisa bulunensis* Blagoderov & Grimaldi
†*Disparoleia* Blagoderov & Grimaldi
†*Disparoleia cristata* Blagoderov & Grimaldi
†*Dziedzickia nashi* Blagoderov & Grimaldi
†*Ectrepesthoneura succinimontana* Blagoderov & Grimaldi
†*Ectrepesthoneura swolenskyi* Blagoderov & Grimaldi
†*Gaalomyia* Blagoderov & Grimaldi
†*Gaalomyia carolinae* Blagoderov & Grimaldi
†*Gregikia* Blagoderov & Grimaldi
†*Gregikia pallida* Blagoderov & Grimaldi
†*Hemolia* Blagoderov & Grimaldi
†*Hemolia glabra* Blagoderov & Grimaldi
†*Hemolia matilei* Blagoderov & Grimaldi
†*Izleiina* Blagoderov & Grimaldi
†*Izleiina mirifica* Blagoderov & Grimaldi
†*Izleiina spinitibialis* Blagoderov & Grimaldi
†*Lecadonileia* Blagoderov & Grimaldi
†*Lecadonileia parvistyla* Blagoderov & Grimaldi
†*Nedocosia* Blagoderov & Grimaldi
†*Nedocosia canadensis* Blagoderov & Grimaldi
†*Nedocosia exsanguis* Blagoderov & Grimaldi
†*Nedocosia novacaesarea* Blagoderov & Grimaldi
†*Nedocosia sibirica* Blagoderov & Grimaldi
†*Neuratelia maimecha* Blagoderov & Grimaldi
†*Protragoneura* Blagoderov & Grimaldi
†*Protragoneura platycera* Blagoderov & Grimaldi
†*Pseudomanota* Blagoderov & Grimaldi
†*Pseudomanota perplexa* Blagoderov & Grimaldi
†*Saigusia pikei* Blagoderov & Grimaldi
†*Synapha longistyla* Blagoderov & Grimaldi
†*Syntemna fissurata* Blagoderov & Grimaldi
†*Temaleia* Blagoderov & Grimaldi
†*Temaleia birmatica* Blagoderov & Grimaldi
†*Zeliinia* Blagoderov & Grimaldi
†*Zeliinia occidentalis* Blagoderov & Grimaldi
†*Zeliinia orientalis* Blagoderov & Grimaldi
- Family †Mysteromyiidae Grimaldi
†*Mysteromyia* Grimaldi
†*Mysteromyia plumosa* Grimaldi
- Family Nemestrinidae Griffith & Pidgeon
†*Hirmoneura caudiprima* Grimaldi
†*Hirmoneura zigzasi* Grimaldi
- Family †Paraxymyiidae Rohdendorf
†*Veriplecia rugosa* Blagoderov & Grimaldi
- Family Periscelididae Oldenberg
Cyamops femobrunneus Grimaldi
Cyamops femoctenidius Grimaldi
†*Periscelis (Myodris) amberifera* Grimaldi & Mathis
†*Periscelis (Myodris) brodzinskyi* Grimaldi & Mathis
†*Periscelis (Myodris) facianota* Grimaldi & Mathis
†*Planinasus electrus* Grimaldi & Mathis
Stenocyamops luteus Grimaldi
Stenocyamops pseudoluteus Grimaldi
Stenocyamops robustus Grimaldi
Stenocyamops vittatus Grimaldi
†*Stenomicro anacrostichalis* Grimaldi & Mathis
Stenomicro ariela Grimaldi
Stenomicro brunnea Grimaldi
Stenomicro castanea Grimaldi
Stenomicro distincta Grimaldi
Stenomicro pallida Grimaldi
†*Stenomicro sabroskyi* Grimaldi & Mathis
Stenomicro sylpha Grimaldi
Stenomicro tokotaai Grimaldi
Stenomicro xoutha Grimaldi
- Family Phoridae Curtis
†*Archiphora pria* Grimaldi & Cumming
†*Archisciada* Grimaldi & Cumming
†*Archisciada lebanensis* Grimaldi & Cumming
†*Eosciadocera pauciseta* Grimaldi
†*Metopina goeleti* Grimaldi
†*Prioriphora luzzii* Grimaldi & Cumming
†*Prioriphora casei* Grimaldi & Cumming
†*Prophora* Grimaldi
†*Prophora dimorion* Grimaldi
- Family Platypezidae Latreille
†*Burmapeza* Grimaldi
†*Burmapeza radialis* Grimaldi
†*Calvopeza* Grimaldi
†*Calvopeza divergens* Grimaldi
†*Canadopeza* Grimaldi
†*Canadopeza biacrosticha* Grimaldi
†*Chandleromyia* Grimaldi
†*Chandleromyia anomala* Grimaldi
†*Electrosania* Grimaldi & Cumming
†*Electrosania cretica* Grimaldi & Cumming
†*Lebanopeza* Grimaldi
†*Lebanopeza azari* Grimaldi
†*Lindneromyia neomedialis* Grimaldi
†*Lindneromyia dominicana* Grimaldi
- Family †Procramptonomyiidae Kovalev
†*Yalea rectimedia* Blagoderov & Grimaldi
- Family †Prosechamyiidae Blagoderov & Grimaldi
†*Prosechamyia* Blagoderov & Grimaldi

- †*Prosechanyia dimedia* Blagoderov & Grimaldi
 †*Prosechanyia trimedia* Blagoderov & Grimaldi
- Family †Protorhynchidae Handlirsch
 †*Brachyrhynchus* Blagoderov & Grimaldi
 †*Brachyrhynchus distortus* Blagoderov & Grimaldi
- Family Psychodidae Newman
 †*Lutzomyia miocena* Peñalver & Grimaldi
 †*Lutzomyia paleopestis* Peñalver & Grimaldi
 †*Lutzomyia succini* Peñalver & Grimaldi
 †*Lutzomyia (Micropygomyia) filipalpis* Peñalver & Grimaldi
 †*Lutzomyia (Trichopygomyia) schleei* Peñalver & Grimaldi
 †*Triassopsychoda* Blagoderov & Grimaldi
 †*Triassopsychoda olseni* Blagoderov & Grimaldi
- Family †Rhagionemestrinidae Ussatchov
 †*Jurassinemestrinus eurema* Grimaldi
- Family Rhagionidae Latreille
 †*Jersambromyia* Grimaldi & Cumming
 †*Jersambromyia borodini* Grimaldi & Cumming
Litoleptis tico Grimaldi
 †*Mesobolbomyia* Grimaldi & Cumming
 †*Mesobolbomyia acraei* Grimaldi & Cumming
 †*Paleochrysopilus* Grimaldi & Cumming
 †*Paleochrysopilus hirsutus* Grimaldi & Cumming
- Family Scenopinidae Fallén
 †*Metatrichia pria* Yeates & Grimaldi
 †*Proratites* Grimaldi & Cumming
 †*Proratites simplex* Grimaldi & Cumming
- Family Simuliidae Newman
 †*Archicnephia* Currie & Grimaldi
 †*Archicnephia ornithoraptor* Currie & Grimaldi
- Family Stratiomyidae Latreille
 †*Lysistrata* Grimaldi & Arillo
 †*Lysistrata emerita* Grimaldi & Arillo
 †*Narcissomyia* Grimaldi
 †*Narcissomyia bella* Grimaldi
 †*Normyia* Grimaldi
 †*Normyia longistyli* Grimaldi
 †*Normyia telescopica* Grimaldi
 †*Normyia woodleyi* Grimaldi
- Family Syringogastridae Prado
 †*Syringogaster craigi* Grimaldi
 †*Syringogaster miocenicus* Grimaldi
- Family Tabanidae Latreille
 †*Cratotabanus asiaticus* Grimaldi
 †*Cratotabanus newjerseyensis* Grimaldi
 †*Tabanipriscus* Grimaldi
 †*Tabanipriscus transitivus* Grimaldi
- Family †Tethepomyiidae Grimaldi & Arillo
 †*Tethepomima* Grimaldi & Arillo
 †*Tethepomima holomma* Grimaldi & Arillo
 †*Tethepomyia* Grimaldi & Cumming
 †*Tethepomyia coxa* Grimaldi
 †*Tethepomyia buruhandi* Grimaldi & Arillo
 †*Tethepomyia thauma* Grimaldi & Cumming
 †*Tethepomyia zigrasi* Grimaldi & Cumming
- Family Valeseguyidae Amorim & Grimaldi
 †*Cretoseguya* Amorim & Grimaldi
 †*Cretoseguya burmitica* Amorim & Grimaldi
 †*Valeseguya disjuncta* Grimaldi
- Family Xenasteiidae Hardy
Xenasteia fijiana Grimaldi
- Family Xylomyidae Verrall
 †*Archsolva* Grimaldi
 †*Archsolva biceps* Grimaldi
 †*Archsolva sulcata* Grimaldi
 †*Cretasolva* Grimaldi
 †*Cretasolva burmitica* Grimaldi
 †*Cretoxyla* Grimaldi & Cumming
 †*Cretoxyla azari* Grimaldi & Cumming
- Family †Zhangsolvidae Nagatomi & Yang
 †*Cratomyia mimetica* Grimaldi
 †*Linguatormyia* Grimaldi
 †*Linguatormyia teletacta* Grimaldi
- Family Incertae sedis
 †*Aschizomyia* Grimaldi [Syrphoidea]
 †*Aschizomyia burmensis* Grimaldi [Syrphoidea]
 †*Atherhagiox* Grimaldi [Tabanomorpha]
 †*Atherhagiox ambiguum* Grimaldi [Tabanomorpha]
 †*Atherhagiox simulans* Grimaldi [Tabanomorpha]
 †*Galloatherix completus* Grimaldi [Tabanomorpha]
 †*Gracilomyia* Grimaldi [orthorrhaphan]
 †*Gracilomyia wit* Grimaldi [orthorrhaphan]
 †*Myanmyia* Grimaldi [Muscomorpha]
 †*Myanmyia asteiformia* Grimaldi [Muscomorpha]
 †*Palaepangonius glossa* Grimaldi [Tabanomorpha]
 †*Prosyrrhus* Grimaldi [Syrphoidea]
 †*Prosyrrhus thompsoni* Grimaldi [Syrphoidea]
 †*Thereotricha* Blagoderov & Grimaldi [Sciaroidea]
 †*Thereotricha agapa* Blagoderov & Grimaldi [Sciaroidea]
 †*Thereotricha sibirica* Blagoderov & Grimaldi [Sciaroidea]
 †*Virginiptera* Blagoderov & Grimaldi [Sciaroidea]
 †*Virginiptera certa* Blagoderov & Grimaldi [Sciaroidea]
 †*Virginiptera lativentra* Blagoderov & Grimaldi [Sciaroidea]
 †*Virginiptera similis* Blagoderov & Grimaldi [Sciaroidea]
