Some New Records of Ants from Arunachal Pradesh
( Hymenoptera : Formicidae )

While studying collections of ants from Arunachal Pradesh brought by various survey parties of the Department, the authors came across six species of ants which are new to Arunachal Pradesh as well as to India. As a matter of fact, nothing is known about ant fauna of Arunachal Pradesh. The new records are as follows:

Newsl. zool. Surv. India 2(2) 1976
Subfamily Myrmecinae

1. *Phidologiton nanus* Roger

*Material examined.*—1 worker, Perying village (200 m.) Siang Dist., 15.x.1966 (*S. K. Tandon* and *G. S. Arora* Coll.).

*Remarks.*—Originally the species was reported from Sri Lanka.

Subfamily Camponotinae

2. *Polyrhachis* (*Myrma*) *convexa* Roger

*Material examined.*—1 worker, Loo Dohung (1524 m.) Kameng Dist., 23.iv.1966 (*A. N. T. Joseph* Coll.).

*Remarks.*—Previously reported from Sri Lanka.

3. *Polyrhachis* (*Myrmhopia*) *hippomanes* Smith

*Material examined.*—20 workers from Rupa Camp, Kameng Dist., 20.xii.1965 (*S. K. Bhattacharya* and *A. N. T. Joseph* Coll.).

*Remarks.*—Previously reported from Burma, Sri Lanka and Indonesia.

4. *Polyrhachis* (*Myrmhopla*) *vicina* Roger

*Material examined.*—18 workers, Kambang (200 m.), Siang Dist., (*S. K. Tandon* and *G. S. Arora* Coll.).

*Remarks.*—This species has been previously reported from Burma.

5. *Polyrhachis ceylonensis* Emery

*Material examined.*—21 workers from Rupa Camp, Kameng Dist., 20.xii.1965 (*S. K. Bhattacharya* and *A. N. T. Joseph* Coll.).

*Remarks.*—Previously reported from Sri Lanka.

6. *Polyrhachis* (*Myrmhopla*) *dives* Smith

*Material examined.*—33 workers from Rupa Camp, Kameng Div., 20.xii.1965 (*S. K. Bhattacharya* and *A. N. T. Joseph* Coll.).

*Remarks.*—Previously known from Sri Lanka, China, Japan, Malaya, Philippines, and Thailand.
